

Research Center

SEAVIEW
RESEARCH

The SeaView Research Center has 148 beds which are divided into six independent units. The space has been specifically configured to enhance both protocol conduct and participant comfort.

Each independent clinic unit provides:

- Comfortable dormitory-like setting
- Privacy configuration for males and females
- Centralized nursing station
- Self-contained dining area
- Recreation and TV lounge

Screening Office and Outpatient Facility

The SeaView Research screening office, located within walking distance to the inpatient center, facilitates high-volume screening without impacting overnight clinic operations.

Services

SEAVIEW
RESEARCH
